

The Carlisle

The Carlisle captures the historic appeal of a traditional salt box colonial with a long angled front gable, appealing angle bay window and side entrance portico. This design includes a formal living room as well as an open concept gathering room. The kitchen area is complete with a center island, and just steps away from the dining area and family room with a gas fireplace.

A large Master Suite featuring a spa tub, shower, double vanity and a spacious walk in closet. An additional two bedrooms, full bath and loft grace the second floor. Hardwood floors, granite kitchen countertops, stainless steel appliances and a two car garage complete this expansive Home.

Total Living Area: 2,349 SF	Traditional 2nd floor bedrooms	Family Room	3 Bedrooms
2.5 Baths	Fireplace	Study	2-car garage
